

Single & Double Bookshelf Headboard Attached to Top of Legs

10/18/24

In some cases depending on your ceiling and leg height, the Single & Double Bookshelf Headboard is a separate unit that is attached to the top of the legs. The Side Extension Posts are 5" – 20" depending on your ceiling height and leg specs.

The Legs and Side Extension Posts will be labeled: Head Leg "A" & Head Leg "A" Extension Post, Head Leg "B" & Head Leg "B" Extension Post. When attaching them make sure to attach "A" to "A" and "B" to "B".

Attach the 2x4x5½" Shelf Supports to the Side Posts 1-3/4" from the bottom using 2½" screws (in some cases they are already attached for you). The 2x4x5½" Shelf Support will extend below the Side Posts by 1-3/4" which will be used to attach to the loft legs later on. Attach the 2x2x5½" Shelf Supports to the Side Posts 3-1/2" from the top using 2½" screws. Attach the Shelf Side Posts to the top of the legs with 2½" screws. For the Double Bookshelf attach the bottom shelf to the supports with 1-5/8" screws. Attach the top shelf to the supports with 1-5/8" screws. Attach the Backboards following the above diagram. **Please note that the backboard is required to support the shelf.**

Please Note: If you ordered taller legs and have a shorter ceiling we will make the Side Posts shorter to fit your ceiling height. When this occurs you will need to place one shelf below the 2x4x5-1/2" support. If you have safety rails the shelf will go in-between the safety rails.

Single Bookshelf Parts List

(1) Shelf & Backboard (2) Side Posts 2x6 x 7" - 10" (2) Shelf Supports 2x4 x 5½" Screws: 1-1/4", 1-5/8", 2½"

Double Bookshelf Parts List

(2) Shelves & Backboards (2) Side Posts 2x6 x 7" - 20" (2) Shelf Supports 2x4 x 5½"
(2) Shelf Supports 2x2 x 5½" Screws: 1-1/4", 1-5/8", 2½"

Single Bookshelf Headboard Attached to Top of Legs

In some cases depending on your ceiling and leg height, the Single Bookshelf Headboard is a separate unit that is attached to the top of the legs. The Side Extension Posts are 5" – 20" depending on your ceiling height and leg specs.

The Legs and Side Extension Posts will be labeled: Head Leg "A" & Head Leg "A" Extension Post, Head Leg "B" & Head Leg "B" Extension Post. When attaching them make sure to attach "A" to "A" and "B" to "B".

The Safety Rail is used to connect the Extension Post to the top of the leg.
