

# Safety Rail Brace Attached to the Short Bookshelf

The Safety Rail Brace is attached to the top rung with (2) 2-1/2" screws and to the top shelf with (1) 1-5/8" screw from underneath the shelf into the bottom of the Safety Rail Brace. With the small drill bit pre-drill a pilot hole into the bottom of the shelf into the center of the bottom of the Safety Rail Brace.

— (1) Small Drill Bit
