

## Steps & Shelves Assembly Instructions

The Steps & Shelves have either 4 or 5 steps. The instructions and photo below shows the 5-Step 53" long unit. Before assembly lay all pieces on the floor without screws to see how they all fit together. All Steps will have pencil marks to indicate where to place the risers.

### 5 Step 53" Long Unit Instructions

Attach with 1-5/8" Screws

Attach the **Short-Riser** to **50" Shelf** from below the shelf. Then attach the Shelf to the **Back & Bottom-Riser** from above the shelf.

Attach **(2) Risers** to the **52" Step** from below the step. Then attach the Step to the **Back & Bottom-Riser** from above the step.

Attach **(2) Risers** to the **42" Step** from below the step. Then attach the Step to the **Back & Riser** from above the step.

Attach **(2) Risers** to the **32" Step** from below the step. Then attach the Step to the **Back & Riser** from above the step.

Attach **(1) Riser** to the **22" Step** from below the step. Then attach the Step to the **Back & Riser** from above the step.

Attach the **12-3/4" Step** to the **Back & Riser** from above the step.

**5-Step 63" Long Unit:** 5-Step Back, Bottom-Riser, Short Riser, (7) Risers, Parts Bag, 60" Shelf, Steps: 22-3/4; 32"; 42"; 52"; 62".

## Attaching the Steps & Shelves to the Bed

The Steps & Shelves may be attached anywhere on the bed. Once you decide on placement you need to pre-drill pilot holes into the rungs to match up with the Risers. If you place the Steps & Shelves on the Front (long side) you will be attaching them to the legs.

**Example of completed installation.**

## Install Optional Handrail

If you ordered the optional Handrail it may be attached to either side of the Steps & Shelves. The Handrail Supports are attached to the side of the Steps & Shelves. Place a small bead of glue on the Handrail Support where it touches the Steps & Shelves. Attach the Handrail Supports with 2-1/2" screws wherever you see a pilot hole. Drive the screws very slowly into the Steps & Shelves making sure you are hitting the center of the board underneath.

Attach the handrail brackets and the handrail to the top of the Handrail Supports. Attach the bracket with the (3) long screws into the Handrail Support and the (2) short screws into the Handrail.
