

# Loft Bed & Bunk Bed Room Planner & Design Guide

Need help designing your child's bedroom? Use the grid shown below to layout where the bed will fit in your room. Print the grid and cut out the loft size you are going to use to place it on the grid. Make sure you mark all walls, doors, windows, closets and any other furniture that will be in the room. Each square on the grid is 6". The overall grid is for a 12' x 12' room. The dimensions shown below are for lofts or standard bunks.

Also please send us various photos of the room and where you want to place the bed.

Scan the drawing or take a picture of it and email it to us at: [info@CollegeBedLofts.com](mailto:info@CollegeBedLofts.com).
